We thank you in advance for your participation in supporting our veterans as we say thank you for all they have sacrificed for us!

“Building Spirits, Souls and Machines”

All proceeds from this tournament will benefit The Warrior Built Foundation in support of their mission to give back to the brave men & women who fought for our country.

Your support will not only provide a shop and/or equipment for current projects, but it will provide resources necessary for additional projects, races and events as we reach out to help as many wounded warriors and combat veterans as possible.

If you would like to learn more about The Warrior Built Foundation, please visit their website.

“It’s about creating relationships between fellow combat veterans... the best thing we can do for you is to connect YOU with other combat vets in order to strengthen your support network”

-Nick Hamm
Founder/President
Warrior Built Foundation

THE MISSION:

The Warrior Built Foundation honors the service and sacrifice of combat veterans, as well as wounded service members, by providing vocational and recreational opportunities. Vocational and recreational opportunities break through walls and foster an environment of healing, where great memories are born, and new support systems are formed.

THE PURPOSE:

The purpose of Warrior Built is to provide new motivation, camaraderie and to spark their imagination while most importantly offering a release to cope with similar difficulties in a positive and therapeutic way. This is done in a safe, fun and supportive environment all while providing much needed different forms of therapy. We thank you for your support in helping us benefit the lives of America's Combat Veterans as we do our part to serve them, like they served us.
